EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Brian Steinberger on 10/31/2005.

The examiner's amendment changes the language of claim 9, beginning of line 8 to read: "said longitudinal portion having a first peripheral surface area before inclusion of said concave depressions A1 and the combined surface areas of said concave depressions and the remaining surface area of said first peripheral surface area after the inclusion of said concave depression having a second peripheral surface area A2, and the ratio $A2/A1$ is between about 1.17 and 1.42." in place of, "said longitudinal portion having a predetermined first peripheral surface area A1, and the combined surface areas of said circular openings having a predetermined second peripheral surface area A2, and the ratio $A2/A1$ is between about 1.17 and 1.42."

DETAILED ACTION

Allowable Subject Matter

Claims 1-10 are allowed.

The following is an examiner's statement of reasons for allowance: Claims 1-10 are allowable since the art of record neither anticipate or makes obvious a barrel of a gun having an array of concave depressions arranged and to the extent as claimed.

Art Unit: 3641

The most pertinent prior art of record is Holland et al (D283042 and D283040) and Behling (6324780). The design patents appear to show features on the barrel, but do not show sufficient structure to anticipate the claim (it is not clear whether the circular features on the barrel are holes or depressions).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gabriel J. Klein whose telephone number is 571-272-8229. The examiner can normally be reached on Monday through Friday 7:15 am to 3:45 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Carone can be reached on 571-272-6873. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
